

Dontek Solar Controllers

The Smart Choice

**Introducing the
AquaSmart 5**
Economical.
Reliable. Smarter.

Relax knowing you have the warmest pool possible

The innovative AquaSmart 5 controller uses state of the art technology to heat your pool and save you money.

The AquaSmart 5 utilizes its in built memory and recognizes when the sun is shining, starting the system at the optimal time. This ensures maximum heating efficiency saving you money.

dontek.com.au • Leaders in heating control innovation

The AquaSmart 5 is easy to operate with its large back lit LCD display, user friendly interface and robust construction making it the leading product of its kind. No nonsense codes ensures you are informed clearly and with no fuss.

This consumer led innovation answers all of your demands for a warmer pool that can be enjoyed for longer.
